Before You Start

Make Sure You Have Everything

When you receive your Chromebook, unpack it carefully, and check to make sure you have all the items listed below. For a pre-configured model you should have the following:

- Chromebook
- AC adapter with power cord
- User Manual

Once you have checked and confirmed that your Chromebook system is complete, read through the following pages to learn about all of your Chromebook components.

Depending on the model you purchased, the actual appearance of your Chromebook may vary from that shown in this manual.
Taking Care of Your Chromebook

• To prevent possible overheating of the processor, make sure you don’t block the openings provided for ventilation.

• DO NOT place on uneven or unstable work surfaces.

• DO NOT use your Chromebook under harsh conditions.

• DO NOT place or drop objects on the Chromebook and DO NOT apply heavy pressure on it.

• DO NOT subject the Chromebook to magnetic fields.

• DO NOT expose to direct sunlight.

• DO NOT use or store in extreme temperatures.

• Avoid sudden changes in temperature or humidity by keeping it away from A/C and heating vents.

• Avoid exposing the Chromebook to rain or moisture.

• DO NOT place near fire or other sources of heat.

• DO NOT tamper with the batteries. Keep them away from younger children.

• DO NOT expose to dust and/or corrosive chemicals.

• DO NOT slam your Chromebook shut and never pick up or hold your Chromebook by the display.

• DO NOT spray water or any other cleaning fluids directly on the display.

• If you are traveling with your Chromebook, remember to carry it as hand luggage. Do not check it in as baggage.
Getting Started

Turn on your Chromebook
Connect the power adapter and turn on your Chromebook. The power button is located on the right side of your Chromebook.

Connect to your network
Select your wireless network from the “Select a network” list to connect to the internet. If your network access is protected, you will need to input the password to connect.

Wait for update to finish
Once connected to the internet, accept the Terms of Service. Your Chromebook will then download any available system updates, so you automatically get the latest Chrome OS features.
Sign in to your Google account or create a new account
If you already have a Google Account, enter your username and password to sign in. If you don’t already have one, click Create a Google Account on the right to set up a new account. A Google Account gives you access to useful web services developed by Google, such as Gmail, Google Docs and Google Calendar.

Sign in with your primary Google Account. This account will be set as the owner and is the only account that will be able to change certain Chrome settings.
Now that you are done setting it up, let us show you around your new Chromebook.

**Integrated HD Camera and Microphone**
Capture high-quality audio and video.

**Touchscreen**
Displays Chrombook output.

**Keyboard**
Explore the web and use apps designed to use keyboard input.

**Touchpad**
Multi-touch sensitive pointing device which functions like a computer mouse.
LED Lights
Indicates the Chromebook’s status.

DC-In
Connects to the charger.

HDMI Port
Supports high-definition video connections.

Audio Jack
Connects to audio devices (e.g., speakers, headphones, or a headset with microphone).

Power Button
To power on or off your Chromebook.

USB Ports
Connects to USB devices.
Speakers
Left and right speakers deliver stereo audio output.

Battery
The removable battery for your Chromebook.

Shortcut Keys

To help you find things quickly, your Chromebook keyboard has special shortcut keys, including a dedicated search key. The shortcut keys make it easy to get around online and control your Chromebook, and the search key lets you search your apps and the web at the same time.

Some special keys sit along the top of Chromebook keyboards. If you’re using a Windows keyboard with your Chromebook, the F keys at the top of the keyboard will work just like the keys below.

- Go to the previous page in your browser history
- Go to the next page in your browser history
- Reload your current page
- Enter Immersive mode, which hides the tabs and launcher
- Enter Overview mode, which shows all windows
- Decrease screen brightness
- Increase screen brightness
- Mute
- Decrease the volume
- Increase the volume

Search your apps and the web at the same time. On your Chromebook, this key is located on the left side, where you normally find the Caps Lock key on a traditional keyboard. To enable the Caps Lock key, press Alt + key.
When you’re using a Chromebook, use the touchpad to move the pointer and select items on the screen. Here are some gestures and actions supported by the touchpad:

**Move the pointer:** Simply move your finger across the touchpad.

**Click:** Press down on the lower half of the touchpad. Since tap-to-click is on by default, you can quickly tap the touchpad to click.

**Right-click:** Click the touchpad with two fingers, or hold Alt while doing a single click.

**Middle-click:** Click the touchpad with three fingers.

**Scroll:** Place two fingers on the touchpad and move them up and down to scroll vertically, left and right to scroll horizontally.

If you have Australian scrolling enabled, move two fingers up to scroll down. (It works in the same way as say, your smartphone or tablet.) If you have multiple browser tabs open, you can also swipe left and right with three fingers to quickly move between tabs.

**Swipe:** Quickly move two fingers left or right to go backward or forward on web pages or while using apps. You can also swipe up with three fingers to see all of your open windows.

**Drag & drop:** Click the item you want to move with one finger. With a second finger, move the item. Release both fingers to drop the item at its new location.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Please Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

**Caution:** To comply with the limits for an FCC Class B computing device, always use the signal cord and power cord supplied with this unit.

The Federal communications Commission warns that changes or modifications to the unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

**European Notice**

The European directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal unsorted municipal waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain, and reduce the impact on human health and the environment. The crossed out “wheeled bin” symbol on the product reminds you of your obligation, that when you dispose of the appliance, it must be separately collected.

**Li-Polymer Battery Warning**

This Chromebook contains a Li-polymer battery to power the clock and calendar circuitry.

**Caution:** Danger of explosion if battery is replaced incorrectly. Only qualified service technicians should replace and discard the battery. Replace only with the same or equivalent type recommended by the manufacturer. Discard used batteries according to the manufacturer’s instructions.

**Travel Notice**

To reduce the risk of electric shock, fire or damage to the equipment, do not attempt to power the Chromebook with a voltage converter kit sold for appliances.
